

WHY GLOBAL?

- Global Grinders supplies the herb, spice and catering industry with an excellent range of grinders or 'mills' as they are sometimes known.
 - Through innovation and quality we remain the preferred supplier of grinders to major FMCG companies and chain stores worldwide
 - Our dedicated hands-on team has many years of experience in the design and production of grinders.
 - We manufacture exclusive designs for a number of large FMCG companies worldwide and can custom design a range to all your specifications.
 - We are renowned for our excellent service and quick turnaround time.
 - Many of our clients have been awarded International Packaging Awards using our products.
- ✓ **Materials used in Manufacture** - Only high grade virgin materials which conform to International Food Standards (eg FDA) are used.
 - ✓ **Quality guaranteed** - Strict quality control. Extensive field tests prove that our grinders last longer.
 - ✓ **Choice of shapes** - You can choose a grinder shape to suit your bottle / pack design. We can custom make a shape of your choice.
 - ✓ **Choice of colours** - Grinders can be colour co-ordinated to match your label or contents, with an option of tinted transparent or solid colours. Minimum order requirement.
 - ✓ **Made to fit** - Our grinders can be custom made to fit any bottle neck size or thread design for bulk orders.
 - ✓ **Stock availability** - As we keep a large holding of grinders in stock we can in most instances ensure immediate dispatch of orders. This prevents out of stock situations arising.
 - ✓ **Competitive pricing** - Within our range of grinders, there is one to suit your budget. Our grinders are extremely competitive in the international market.
 - ✓ **Clip on lid** - All our grinders have clip on lids to ensure your product remains in premium condition.
 - ✓ **Company Logo** - Lids can be embossed with logo or wording of your choice.
 - ✓ **HACCP Accredited** - We are HACCP accredited to insure the strictest food safety procedures.

- ✓ **Patented and design protected** - Our proven grinding mechanisms give a perfect grind every time.
